

SIDDHARTHA KUNWAR

Blockchain & Full Stack Engineer — Founding Engineer

+91 93544-81754 — kumarsiddharthakain@gmail.com — **Location:** Delhi, India — **IST (GMT+5:30)**

LinkedIn - linkedin.com/in/siddhartha-kunwar — **GitHub** - github.com/x0lg0n — **Portfolio** - x0lg0n.tech — **X** - @x0lg0n

PROFESSIONAL SUMMARY

Blockchain & Full Stack Engineer focused on Stellar and Midnight. Shipped production dApps including Orka (100+ users), RemitFlow, and Wrangler (ZK feedback). Experienced in Soroban, Zero-Knowledge Proofs, NestJS, and Next.js. Open to remote Founding Engineer, Blockchain Developer, and DevRel roles.

EXPERIENCE

RISEIN

Feb 2026 – Present

RiseIn Stellar Journey to Mastery & Midnight Program

remote, Global

- Built and **launched** multiple products on the **Stellar ecosystem** including **Orka** (AI Financial OS – **100+ users**), **RemitFlow** (cross-border payment router), **SplitRent** (decentralized rent splitter), and **Wrangler** (Midnight program).
- Open-sourced projects** and **launched Orka** on **LaunchLlama** while applying for **Stellar ecosystem funding**.

SEN4A RECRUITERS

Mar 2025 – Sep 2025

Backend Engineer Intern

Remote / Tokyo, Japan

- Designed a **scalable NestJS microservices** backend that streamlined **recruitment workflows** and **reduced candidate processing time**.
- Optimized **GraphQL queries** with **Knex.js**, improving **API performance** and **reducing latency**.

PROJECTS

Orka | **Stack:** Next.js 16 · TypeScript · Rust · PostgreSQL · Supabase · Stellar/Soroban

Jun 2026

- Built and launched a full-stack AI financial platform for **agencies** and **freelancers** covering proposals, contracts, milestones, escrow, and payments; reached **100+ real users**, **open-sourced** the project, and **launched on LaunchLlama** while designing the complete backend and database architecture.

Wrangler | **Stack:** Midnight Network, Zero-Knowledge Proofs, Compact, Next.js, TypeScript

Jun 2026

- Built a **decentralized** application on the **Midnight Network** that enables anonymous, mathematically verifiable feedback using **Zero-Knowledge Proofs**; implemented **Compact smart contracts** with **ZK circuits** for private authorization, full **Next.js16** frontend, **wallet integration**, and a privacy model that keeps submitter identity completely private while making feedback publicly auditable.

RemitFlow | **Stack:** Next.js 16, Stellar, Soroban, TypeScript, Tailwind CSS

Feb 2026

- Developed a **decentralized** payment routing platform on **Stellar** that aggregates real-time rates from multiple **anchors** and automatically selects the lowest-cost corridor; implemented **Soroban smart contracts**, **Freighter wallet integration**, and **SEP-10 authentication**.

3D HerbVision | **Stack:** YOLOv8, Neural Radiance Fields (NeRF), Three.js, FastAPI, Computer Vision

Sep 2025

- Built an AI system for medicinal plant detection (**91.8% mAP@0.5**) and photorealistic 3D reconstruction using **Neural Radiance Fields** + interactive **Three.js** viewer.

SKILLS

- Blockchain:** Stellar, Soroban Smart Contracts, Freighter Wallet, SEP-10, Anchors, Cross-border Payments
- Languages:** TypeScript, JavaScript, Rust, Java, Python, SQL
- Backend:** Node.js, NestJS, Express.js, GraphQL, Microservices, Clean Architecture
- Database:** PostgreSQL, Redis, MongoDB, Supabase, Prisma, Knex.js
- DevOps & Cloud:** AWS, Docker, GitHub Actions, Bitbucket CI/CD, Terraform, Linux
- Frontend:** Next.js, React, Tailwind CSS
- Engineering:** System Design, API Design, Smart Contract Integration, Open Source

ACHIEVEMENTS

- Publications:** Published research work on “**AI Based Medical Plant Detection and 3D Reconstruction (3D HerbVision)**” — developed an end-to-end system using **YOLOv8 (91.8% mAP@0.5)** and **Neural Radiance Fields**.
- Built & launched Orka** (AI Financial OS) — **100+ real users**, live on **LaunchLlama**, preparing **Product Hunt** launch, and applied for **Stellar Community Funds**.
- Earned \$250** from the Stellar ecosystem through builder programs and contributions (RiseIn, Build Station, etc.).
- Certifications** - OCI DevOps Professional, OCI Generative AI Professional, Machine Learning Specialization

EDUCATION

Abdul Kalam Technical University

Bachelor of Technology in Artificial Intelligence & Machine Learning

Ghaziabad, Uttar Pradesh

Nov 2022 – Jun 2026
